

JM BULLION

Purchase Precious Metals with your IRA

JM Bullion is proud to offer precious metal IRAs to all of our current and prospective customers. We have partnered with New Direction IRA to offer the lowest cost and quickest IRA setup and maintenance, so you can enjoy all the tax benefits of IRA investing without the hassles normally associated with these investments.

Step 1: Open and Fund an IRA account with New Direction IRA

The first step is to open and fund a self directed IRA. New Direction IRA is one of the biggest names in self directed retirement plans, and administrates over half a billion dollars in assets such as precious metals, real estate, and equities. New Direction offers a variety of plan types including: Traditional and Roth IRAs, SEP IRAs, HSAs, and Solo 401(k)s. Get started today and a dedicated account representative will assist you throughout the entire process.

Download an application at NewDirectionIRA.com or call to get started 877-742-1270.

Step 2: Purchase Precious Metals

Once New Direction IRA has confirmed receipt of your funds, you can purchase any IRA-eligible precious metals from JM Bullion over the phone. IRA-eligible precious metals are classified as gold bullion of .995 or higher fineness as well as silver bullion of .999 or higher fineness, and include all of our gold bars, silver bars, silver rounds, American Silver Eagle, and Canadian Silver Maple Leaf products.

To make a purchase, simply call us at 800-276-6508 to lock in product pricing and quantities. We will immediately send the invoice to New Direction IRA, who then wires us the funds to pay for your IRA order.

Step 3: Ship to Depository

As a part of the IRS's rules governing precious metal IRAs, the investor cannot take physical delivery of the metal. The metal must be held in an approved depository, which is responsible for ensuring the safety and maintenance of the precious metal products. As a part of our program, you can select any IRA-approved precious metals depository for safekeeping of your investments.

Once you choose a depository, simply notify us of the depository's details and we will reach out to them to arrange shipment on your behalf. Once the metal departs our facility, it is fully insured until the time it reaches the depository's facility, and from that point is stored securely in their vaults on your behalf.
